Cybersecurity leadership backed by a federal contract vehicle ready for task order award.

CMMC & THE DEFENSE INDUSTRIAL BASE

MCGlobalTech helps Defense Industrial Base contractors build and sustain cybersecurity programs that meet CMMC and NIST SP 800-171 requirements — Level 1 & 2 readiness, CUI scoping, control implementation, and assessment/audit readiness.

CMMC ASSURED ENCLAVE™ (CAE)

MCGlobalTech's managed CMMC compliance environment for organizations handling CUI — designed to help reduce CMMC assessment scope, simplify security implementation, and lower the ongoing effort required to maintain CMMC Level 2 compliance.
