Transform your kitchen

HUMBERSPRAY HANDLE COLLECTION

THE FINISHING TOUCH

Why stop at the colour?

A kitchen respray can completely transform the look and feel of your kitchen — but sometimes it's the smaller details that make the biggest difference.

That's why we've created our **HumberSpray Handle Collection**.

Whether you're looking for a modern, minimalist finish, something classic and timeless, or a bold statement piece, the right handles can take your newly resprayed kitchen to another level.

- **A simple upgrade. A completely different kitchen.**

Replacing your handles alongside your respray allows you to change more than just the colour of your doors. New handles can completely change the style of your kitchen, helping to create a finish that feels genuinely new — without the cost and disruption of replacing the entire kitchen.

We've carefully selected a range of styles, finishes and sizes to complement our kitchen respraying service, giving you the freedom to create a kitchen that feels personal to you.

- **Your kitchen. Your colour. Your style. Your finishing touch.**

Browse our collection and find the handles that will complete your transformation.

CHOOSING YOUR NEW HANDLES

The little detail that makes a big difference

Choosing new handles is a great way to personalise your kitchen and complete the transformation. With a wide range of styles, finishes and sizes available, you can choose something that complements your new kitchen colour perfectly — whether you want a subtle, elegant finish or something that makes more of a statement.

You Don't Have To Stick With Your Existing Handles

One of the biggest advantages of having your kitchen professionally resprayed is that **you're not limited to the handle style or size you already have.**

We can **fill your existing handle holes and create new ones** to suit your chosen handles. So whether your current kitchen has small knobs, long handles, cup handles or handles with completely different fixing centres, you can choose the style you actually want.
Your new handles don't have to fit your old holes — we can make them fit your new design.
This gives you much more freedom to completely change the look of your kitchen.

Find your Style

Take a look through our handle collection and find a style and finish that suits your kitchen.
Our collection includes a variety of:
• Modern & minimalist designs
Clean lines and simple shapes for a contemporary look.
• Traditional & timeless designs
Classic styles that work beautifully with both modern and traditional kitchens.
• Statement handles
Larger or more distinctive designs for adding character and making your kitchen stand out.
• A range of finishes
From brushed and polished finishes to black, brass, chrome, gunmetal and more.

What Size Do I Need?

Handle sizes are based on the centre-to-centre measurement — the distance between the centres of the fixing holes. But don't worry if your existing handles have different measurements. You can choose the handle you love, and we'll take care of the rest.

Not Sure What Will Look Best?

If you're unsure which style, size or finish will work best with your chosen kitchen colour, we're happy to help.
We can recommend handle options that complement your kitchen and help you create a finished look that feels cohesive and professionally designed.

Pricing

Handle pricing is available on request and will depend on the style and quantity selected. Simply let us know which handles you like and we'll provide you with a price.
Choose your handles. Choose your finish. Complete your transformation.
