TURNING IDEAS INTO SOLUTIONS

Technology, infrastructure, system integration, and data solutions designed to create measurable value for business.

PT ATRIA KARSAREKA

01 | COMPANY OVERVIEW

PT Atria Karsareka is an IT and technology company focused on system infrastructure and data. We combine technology, engineering expertise, integration capability, and disciplined execution to help organizations build reliable, scalable, and business-aligned technology environments.

SYSTEM INFRASTRUCTURE	Design, implementation, configuration, optimization, and support for enterprise technology infrastructure.
SYSTEM INTEGRATION	Integrating infrastructure, platforms, applications, and operational components into a coherent ecosystem.
DATA SOLUTIONS	Data integration, processing, management, and technology foundations that support efficient operations and decision-making.
TECHNOLOGY SERVICES	Professional technology services focused on quality, reliability, security, and long-term maintainability.

Our Position

We position ourselves as a technology partner that translates business needs into practical solutions—from infrastructure foundations and system integration to data-related services. Our approach emphasizes clarity, quality, professional execution, and sustainable value.

02 | VISION

“Menjadi perusahaan solusi dan teknologi yang terpercaya, inovatif, dan berkelanjutan dalam menciptakan nilai bagi pelanggan melalui integrasi teknologi, keahlian, dan karya yang berkualitas.”

What the vision means in practice

TRUST

Build confidence through accountable delivery, transparent communication, and dependable technology services.

INNOVATION

Continuously explore better technologies, methods, and solutions that respond to evolving business needs.

SUSTAINABILITY

Create solutions that remain useful, maintainable, scalable, and valuable over the long term.

VALUE

Connect technology execution with measurable operational and business outcomes.

03 | MISSION

01

Menyediakan solusi yang tepat guna

Memahami kebutuhan pelanggan dan menghadirkan solusi yang relevan, efektif, dan memberikan nilai nyata bagi perkembangan bisnis.

02

Mengembangkan solusi berbasis teknologi dan data

Menyediakan layanan teknologi, data integration, data processing, system integration, dan solusi digital yang mendukung efisiensi serta pengambilan keputusan.

03

Mengutamakan kualitas dan profesionalisme

Menjalankan setiap pekerjaan dengan standar kualitas, integritas, tanggung jawab, dan profesionalisme yang tinggi.

Our mission is built around a simple principle: technology should be purposeful, professionally delivered, and connected to customer value.

04 | MISSION CONTINUED

04

Membangun hubungan jangka panjang dengan pelanggan

Menempatkan kepercayaan, komunikasi, dan kepuasan pelanggan sebagai dasar dalam membangun kerja sama yang berkelanjutan.

05

Mendorong inovasi dan pengembangan berkelanjutan

Terus meningkatkan kemampuan, teknologi, proses, dan sumber daya manusia agar mampu mengikuti perkembangan kebutuhan bisnis dan teknologi.

06

Mengembangkan bisnis secara berkelanjutan

Membangun portofolio produk dan layanan yang beragam serta menciptakan peluang bisnis baru dengan tetap menjaga kualitas, nilai, dan keberlanjutan perusahaan.

05 | SOLUTION PORTFOLIO

Our solution portfolio is designed around the technology foundations and data capabilities required by modern organizations.

INFRASTRUCTURE SYSTEM	Server & compute • Storage • Virtualization • Network • Enterprise infrastructure • Infrastructure optimization
SYSTEM INTEGRATION	Architecture • Integration • Deployment • Configuration • Interoperability • Testing & validation
DATA SERVICES	Data integration • Data processing • Data management • Data flow & pipelines • Data-ready infrastructure
DIGITAL & TECHNOLOGY SOLUTIONS	Technology assessment • Solution design • Implementation services • Operational improvement
PROFESSIONAL SERVICES	Technical consulting • Implementation • Troubleshooting • Documentation • Knowledge transfer
SUPPORT & CONTINUITY	Operational support • Preventive activities • Performance monitoring • Improvement recommendations

06 | DELIVERY APPROACH

01	UNDERSTAND	Identify business objectives, technical requirements, constraints, and expected outcomes.
02	DESIGN	Translate requirements into an appropriate architecture, solution design, scope, and implementation plan.
03	IMPLEMENT	Execute installation, configuration, integration, migration, and technical activities with disciplined procedures.
04	TEST	Validate functionality, performance, integration, and readiness against agreed requirements.
05	HANDOVER	Provide documentation, knowledge transfer, operational guidance, and project closure.
06	IMPROVE	Review results and identify opportunities for optimization, scalability, reliability, and future development.

Core Values

INTEGRITY	QUALITY	CUSTOMER FOCUS
Accountable, transparent, and responsible in every engagement.	Deliver work with disciplined standards and professional execution.	Start from customer needs and build toward meaningful outcomes.
