

Business Profile – Thutoboswa Learning Management System (LMS)

Background

Company Overview

Thutoboswa LMS is a **cloud-based education management platform** developed by **Mofiati Investments (Pty) Ltd.** It streamlines academic administration, enhances transparency, and provides centralized monitoring of student performance across Junior and Senior Secondary Schools in Botswana.

The system is **user-friendly, customizable, and supported 24/7**, eliminating manual processes and empowering schools with digital tools for teaching, learning, and management.

Core Features

1. E-Lesson Plan & E-Scheme Management

- Teachers create and edit lesson plans/schemes online.
- Senior Teachers review, comment, and auto-sign submissions.
- Top Management can view and comment across departments.
- Lesson plans can be reused annually without starting afresh.

2. E-Timetable Scheduling

- Automated exam/test timetables with invigilator allocation.
- Options to include/exclude staff.
- Fair slot balancing with transparent allocation.
- Authorized personnel can edit/print; management has view-only access.

3. Student Portal

- Parents access progress reports, assessments, and attendance online.
- Teachers share revision materials digitally.
- Students attend lessons remotely when absent.
- Schools can block/unblock reports for consultation before release.

4. Student Marks Analysis

- Automated analysis for teachers, departments, and Heads of House.
- Detailed reports at student, class, house, and school levels.
- Exportable to Excel and printable.
- Includes JCE Final Analysis and PSLE vs JCE grading track.

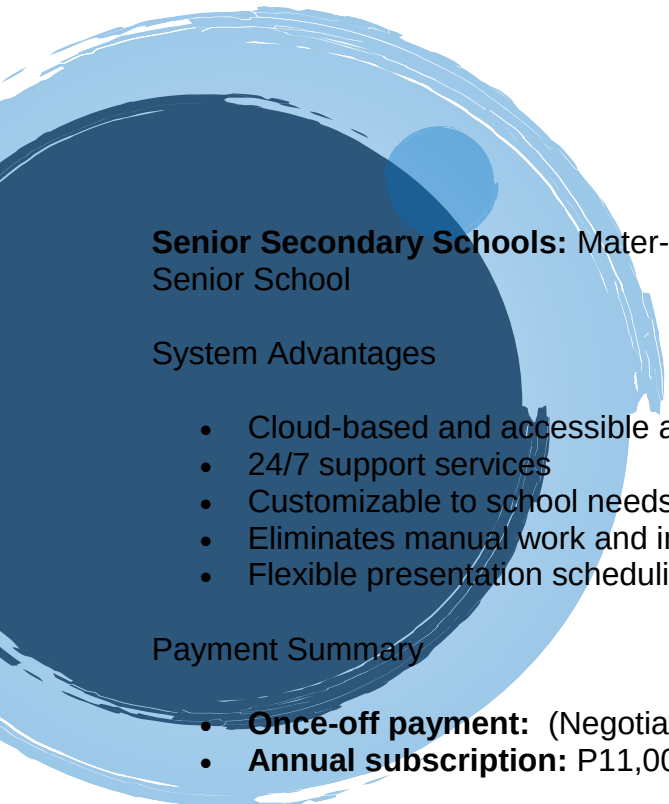

5. Marks Storage & Tracking

- Activity logs record all mark entries, edits, and deletions.
- Deleted marks retained for recovery.
- Built-in safeguards prevent data loss and enable one-click restoration.

Client Schools
