CEDAR SAFE

ORGANIC SPRAY FOR THE OUTDOORS

CONTROLS THE EGG, LARVAE & ADULT STAGES OF INSECTS SUCH AS:
BEETLES • CHIGGERS • FLEAS • TICKS • MOSQUITOES • MITES • CHINCH BUGS
AND OTHER LAWN SURFACE FEEDERS, GRUBS AND OTHER SUB-SURFACE INSECTS
IT HAS NO EFFECT ON BENEFICIAL INSECTS SUCH AS BUTTERFLIES OR BEES

DIRECTIONS FOR USE
Shake Well Before Using

1. MIX 1 QUART CEDAR SAFE TO 200 GALLONS OF WATER
2. APPLY TO 1 ACRE

CAUTION

Avoid contact with eyes. If in eyes flush with water for 15-20 minutes.

Store only in original container in dry area. Rinse container thoroughly before legal disposal.

NET CONTENTS: 1 GALLON

ACTIVE INGREDIENTS:
Cedar Oil.....85%
INERT INGREDIENTS:
Ethyl Lactate.....15%
TOTAL.....100%

EPA MINIMUM RISK PESTICIDE MATERIAL
FIFRA 25(b)/40 CFR 152.25 (F)

DISTRIBUTED BY:
PROFESSIONAL TREE SURGEONS SUPPLY, INC.
580 W. HOFFMAN AVENUE, LINDENHURST, NY 11757

How & Why Cedar Oil Works

The aroma of Cedar oil to an insect is the same as ammonia to a human. They can easily be overcome. The final result is death. All insects breathe through their bodies. When they are exposed to the fumes of Cedar oil, they are quickly overwhelmed and their mental faculties are impaired. If no escape is possible, they exhaust themselves trying and die. It's that simple! So don't use baits to attract more bugs to kill, simply use Cedar oil and get rid of the bugs you already have.

Cedar oil is a natural essential oil that provides a pheromone interruption agent that impairs the insects' mental capacity. When combined with Ethyl Lactate, a corn oil by-product, it becomes a bio solvent which is instrumental in triggering instant erosion and dehydration of the insects' exoskeleton and subsequently, the egg and larvae. Exposure to a water solution spiked with cedar oil and ethyl lactate will destroy the egg and larvae stage, breaking the egg layer cycle and eliminating the next generation of insects. Cedar Safe in combination with large amounts of water will be instrumental in the demise of numerous non beneficial insects including but not limited to fleas, ticks, mites, mosquito's, scorpions, beetles, mole crickets, grubs, chinch bugs and many others. It has no effect on beneficial and pollinator insects such as butterflies or bee's which are sight driven. It will not hurt any of the amphibians or lizard family but will deter snakes from the treated area.

*Cedar Safe VS. Tick Killz. With 85% Cedar oil, Cedar Safe is the highest AI of any product on the market. Other cedar oil based products, like Tick Killz has 39% AI. 1 gal. of Cedar Safe mixes 800 gallons of finished product verses 1 gal mixes 640 gallons of finished product. FIFRA 25(b) Exempt Product / No EPA#. Mix 1 quart – 200 gallons H_2O
