COMPANY OVERVIEW

Comprehensive Glass and Architectural Glazing Solutions
Building the Future Through Glass, Innovation, and Excellence

Elite Glazing Américas is a professional architectural glazing company dedicated to providing comprehensive glass and building envelope solutions in Honduras and Central America.

Founded in 2026 by industry professionals Daniel “Danny” Bueso, Eleanor Grace Gensoli-Castellanos, and José Ernesto Mejía Portillo, Elite Glazing Américas combines over 45 years of collective experience in architectural glazing, engineering coordination, project management, fabrication, and installation.

Our mission is to bring world-class expertise in glazing systems, engineering excellence, and reliable project execution to the Central American construction market. Through our commitment to quality, innovation, and customer service, we help owners, developers, architects, and contractors deliver projects that meet the highest standards of performance, aesthetics, and durability.

At Elite Glazing Américas, we understand that successful projects require far more than quality materials. They require precise planning, coordinated engineering, reliable schedules, and experienced execution. We act as a strategic partner throughout the entire project lifecycle—from the conceptual stage and design assistance to installation and final closeout.

ABOUT US

Elite Glazing Américas was established to address the growing need in Honduras and Central America for a glazing solutions provider focused on professionalism, technical expertise, and reliable project delivery.

Many companies compete primarily on price, often resulting in incomplete documentation, project delays, coordination challenges, and inconsistent quality. Elite Glazing Américas was founded to offer a different approach: one rooted in engineering precision, structured project management, quality assurance, and customer satisfaction.

Our team draws upon decades of international experience in the architectural glass industry, gained through involvement in some of the most renowned commercial, hospitality, transportation, and institutional projects across North America and the Caribbean.

By combining proven industry practices with innovative construction methods, Elite Glazing Américas delivers value that extends beyond the glazing system itself.

CORPORATE VALUES

Vision

To become the leading provider of glazing solutions in Central America by delivering safer, faster, and higher-quality building envelope systems through innovation, prefabrication, and world-class installation practices.

Fundamental Values:

Integrity – We conduct business with honesty, ethics, and transparency.

Responsibility – We fully assume our project commitments and responsibilities.

Excellence – We strive for the highest standards of quality, service, and execution.

Safety – We prioritize the health and safety of our employees, customers, and communities.

Innovation – We adopt new technologies and construction methods that improve project outcomes.

Collaboration – We believe that successful projects are built through teamwork, communication, and collaboration.

SERVICES

Design and Engineering Support

Our technical team provides comprehensive support during the planning, design development, and construction phases.

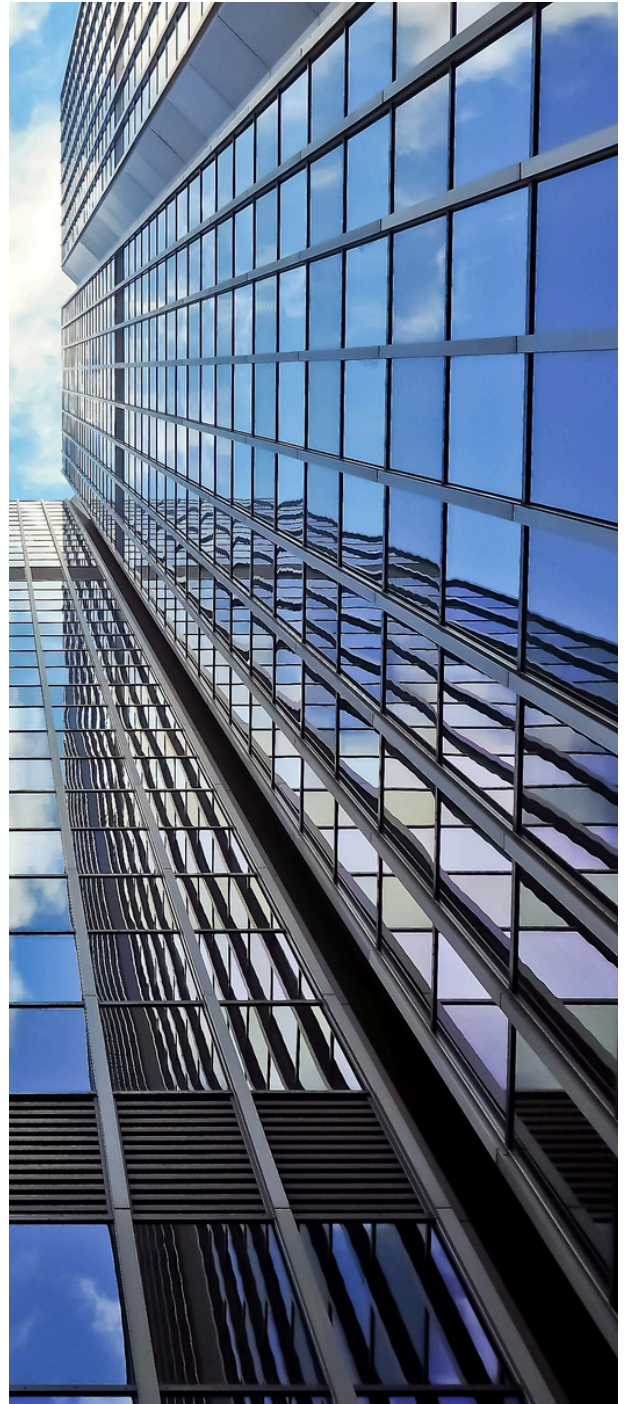

Services Include:

- Shop Drawings
- Engineering Coordination
- Design Assistance
- Product Selection Support
- Building Envelope Consulting
- Constructability Reviews
- Coordination with Architects and Engineers

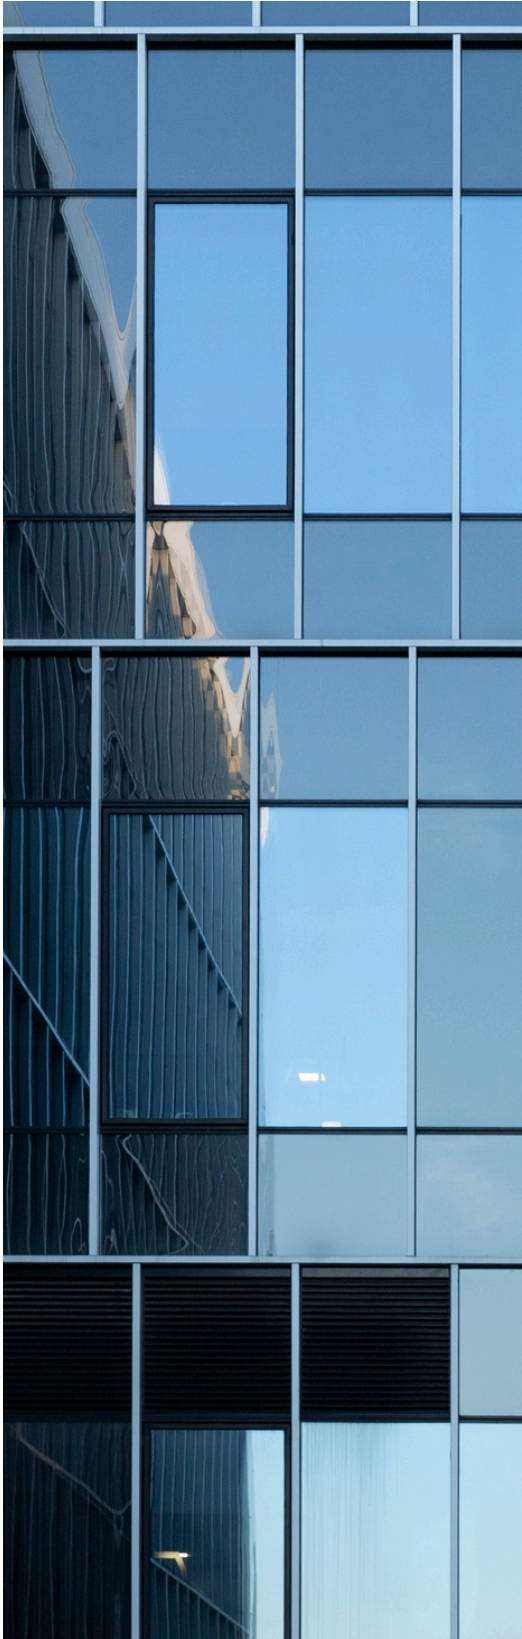

We believe that accurate and coordinated technical approval documentation is essential for the successful execution of a project. Our detailed shop drawings and technical documentation help minimize on-site conflicts and facilitate efficient delivery.

Installation Services

Elite Glazing Américas provides professional installation services for both new construction projects and renovations of existing buildings.

SERVICES

Installation Capabilities

- New Construction Projects
- Commercial Renovations
- Retrofits
- Exterior Envelope Improvements
- Impact-Resistant and Non-Impact-Resistant Glazing Systems

Our installation teams are trained to execute projects safely, efficiently, and in compliance with manufacturer requirements and applicable building codes.

Consulting Services

Our consulting services help owners, developers, architects, and contractors make informed decisions during the development of their projects.

Services Include:

- Glazing Consultancy
- Evaluation of Existing Buildings
- Product Evaluation
- Value Engineering
- Budget Development Support
- Project Feasibility Studies

Our goal is to identify practical solutions that balance performance, aesthetics, constructability, and budget.

PRODUCTS AND SYSTEMS

Elite Glazing Américas collaborates with leading manufacturers of glazing systems to offer proven, reliable solutions for a wide range of buildings and performance requirements.

Systems Include:

- Curtain Wall Systems
- Window Wall Systems
- Storefront Systems
- Aluminum Entrances
- Impact-Resistant Systems
- Non-Impact-Resistant Systems
- Energy-Efficient Glass Systems

As the company grows, Elite Glazing Américas intends to develop proprietary glazing systems designed specifically to meet the unique needs of the construction markets in Central America and the Caribbean.

COMPETITIVE ADVANTAGES

Faster Project Delivery

We use proven project management processes and advanced coordination methods to keep projects moving forward efficiently.

Superior Shop Drawings

We produce detailed, accurate, and coordinated technical approval documentation that supports successful fabrication, installation, and construction sequencing.

Experienced Leadership

Our management team brings over 45 years of combined experience in commercial, hospitality, transportation, and institutional projects, as well as high-rise buildings.

Quality Assurance

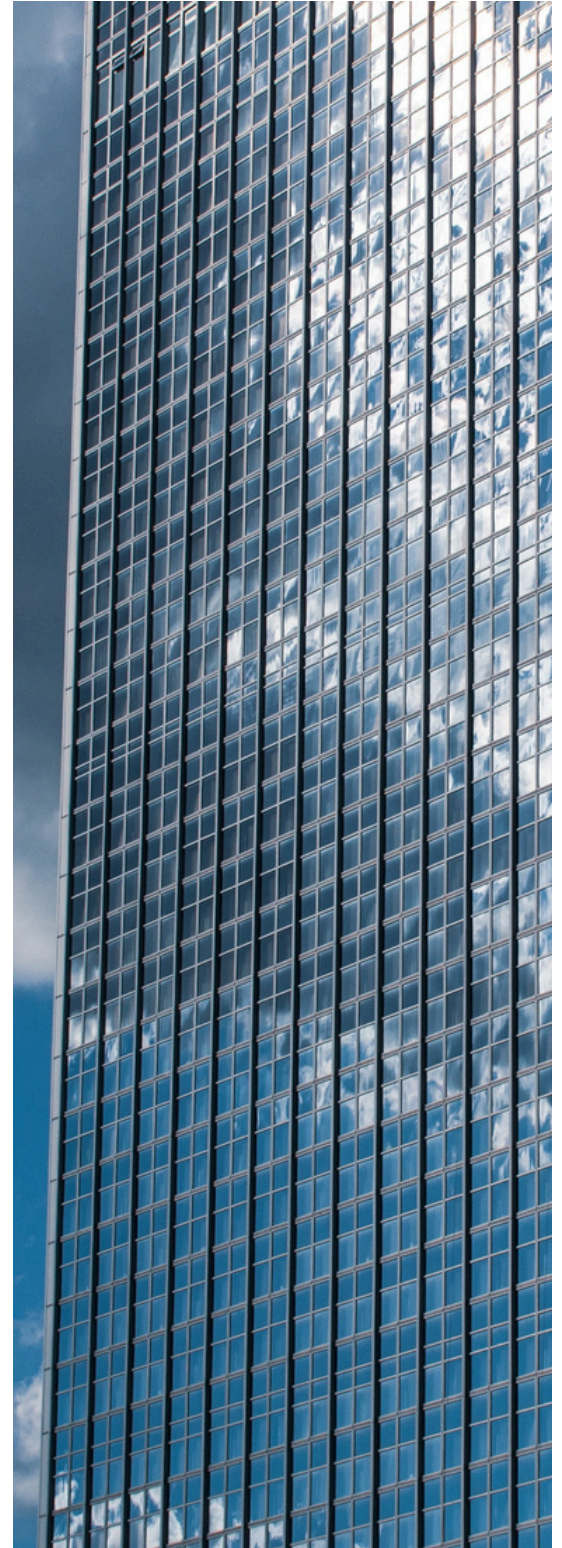

We implement structured QA/QC procedures during project planning, procurement, installation, and closeout.

Excellence in Project Management

We maintain proactive communication, schedule control, and constant coordination to ensure successful results.

Innovation Through Prefabrication

We are committed to introducing modern prefabricated construction methods and unitized systems that improve quality, optimize building performance, and reduce construction times.

OUR LEADERSHIP

Daniel "Danny" Bueso – Founding Partner / Director of Business Development & Construction Operations

A glazing industry professional with over 25 years of experience in commercial glass and glazing installation. He began his career in the industry in 1999 and founded Danny Windows in 2005, building extensive hands-on and leadership experience in the installation of complex commercial glazing systems. His expertise includes curtain wall systems, glass and aluminum panel installation, and the field coordination and execution of large-scale glazing projects. Throughout his career, he has worked on projects across the United States and internationally, including major projects in Nassau, Bahamas; Fort McMurray, Canada; and Bermuda. His experience includes managing multiple projects simultaneously and leading installation crews of up to 80 team members. As a member of the leadership team at Elite Glazing Américas, Danny brings decades of practical field experience, installation expertise, and a strong understanding of the challenges involved in executing complex glazing projects. He is committed to quality workmanship, effective field coordination, and delivering successful installations from project mobilization through completion.

Eleanor Grace Gensoli-Castellanos – Founding Partner / Managing Director

A glazing industry professional with over 20 years of experience in project management, engineering, drafting, and construction operations. Her leadership experience as Vice President of Engineering & Drafting includes overseeing multidisciplinary teams responsible for the design, coordination, and execution of complex commercial glazing projects throughout Florida. Her expertise encompasses curtain wall systems, impact-resistant glazing, building envelope design, shop drawings, fabrication coordination, and code compliance. Having managed projects ranging from luxury high-rises and hotels to healthcare and educational facilities, she is known for her technical knowledge, leadership, and commitment to delivering quality results. She is passionate about mentoring technical teams, improving operational efficiency, and helping clients successfully navigate the challenges of complex construction projects.

José Ernesto Mejía Portillo — Founding Partner / Corporate Legal Director

A law graduate of the University of La Laguna, Tenerife, Spain, with a postgraduate degree in Criminal Law and Criminal Procedure from UNAH, a diploma in International Commercial Arbitration from the International Arbitration School in Bogotá, and training in the legal aspects of international business through INCAE–Georgetown University. He serves as an arbitrator with the CCIT Conciliation and Arbitration Center and with the Court of Arbitration for Sport (CAS) and heads the firm Mejía Portillo y Asociados. Within the Tegucigalpa Chamber of Commerce and Industry he has served as Vice President, First Board Member, and Comptroller of its Board of Directors, and he sits on the Francisco Morazán Mercantile Registry Committee and directs the chamber's magazine, Comercio Global. In public service he was Secretary General of the Ministries of Foreign Affairs, Interior and Justice, and Economy and Commerce, and served on the boards of the National Port Authority and the National Tourism Council. At Elite Glazing Américas he leads the company's legal, contractual, and compliance structure, and supports construction contract negotiation and project risk management.

LEADERSHIP EXPERIENCE

The management team at Elite Glazing Américas has participated in the successful execution of numerous landmark projects, including:

- **Hard Rock Hotel & Casino – Davie, Florida**

Daniel Bueso — with Danny Windows

- **Waldorf Astoria Hotel – Miami, Florida**

Daniel Bueso — with Danny Windows

- **One West Palm – West Palm Beach, Florida**

Eleanor Grace Gensoli-Castellanos — with All American Windows

- **Miami International Airport – Miami, Florida**

Eleanor Grace Gensoli-Castellanos — while with NR Windows + Daniel Bueso - with Danny Windows

- **Lynden Pindling International Airport – Nassau, Bahamas**

Daniel Bueso — with Danny Windows

- **Fort McMurray International Airport – Alberta, Canada**

Daniel Bueso — with Danny Windows

- **Brightline MiamiCentral Station (Formerly All Aboard Florida) – Miami, Florida**

Eleanor Grace Gensoli-Castellanos — while with NR Windows + Daniel Bueso — with Danny Windows

- **Miami Intermodal Center – Miami, Florida**

Eleanor Grace Gensoli-Castellanos — while with NR Windows

- **U.S. Southern Command Headquarters (SOUTHCOM) – Doral, Florida**

Eleanor Grace Gensoli-Castellanos — while with NR Windows

- **Miami Culinary Institute (Miami Dade College) – Miami, Florida**

Eleanor Grace Gensoli-Castellanos — while with NR Windows

- **Cleveland Clinic Hospital – Weston, Florida**

Eleanor Grace Gensoli-Castellanos — while with NR Windows

- **Jade Signature – Sunny Isles Beach, Florida**

Eleanor Grace Gensoli-Castellanos — while with NR Windows + Daniel Bueso — with Danny Windows

These projects demonstrate our team's experience with complex, large-scale developments that require exceptional coordination, technical expertise, and quality execution.

TECHNICAL EXPERIENCE

Elite Glazing Américas provides support for projects requiring:

- *Hurricane-Resistant Glazing Systems*
- *Impact-Resistant Systems*
- *Non-Impact-Resistant Systems*
- *Energy-Efficient Building Envelope Solutions*
- *LEED-Compatible Systems*
- *Compliance with the International Building Code (IBC)*
- *Compliance with the Florida Building Code*
- *High-Performance Architectural Glazing Applications*

Our knowledge of both North American and international building standards enables us to offer solutions that meet the evolving needs of modern construction.

WHY CHOOSE ELITE GLAZING AMÉRICAS?

At Elite Glazing Américas, we are more than just a glazing contractor: we are a strategic partner in building envelope solutions.

Our combination of engineering expertise, disciplined project management, quality-focused execution, and commitment to innovation enables us to help our clients deliver successful projects with complete confidence.

Whether working on an office building, luxury resort, transportation facility, hospital complex, or mixed-use development, Elite Glazing Américas is committed to providing comprehensive architectural glass and glazing solutions that exceed expectations.
