

The background of the slide is a stylized, light-colored illustration of an industrial facility. It features several tall distillation columns with ladders and platforms, large storage tanks, and a network of pipes. The scene is set against a backdrop of rolling hills and a sky with soft, stylized clouds. The overall color palette is muted, consisting of light blues, greys, and earthy tones.

GAMA Valley Company

COMPANY PROFILE

A specialized industrial supply and services company based in the Kingdom of Saudi Arabia — delivering engineered products, industrial equipment, and technical solutions to the energy, water, and petrochemical sectors.

About GAMA Valley

GAMA Valley Company is a specialized industrial supply and services partner supporting oil & gas, power generation, water desalination, petrochemical, and industrial sectors across Saudi Arabia. Sourcing from reputable international manufacturers and OEM partners, the company brings deep technical understanding of industry standards and the demanding conditions of critical applications.

Engineered Products

High-quality components meeting international standards for critical operations.

OEM Partnerships

Sourced from reputable global manufacturers and certified OEM partners.

Technical Expertise

Deep understanding of operational requirements and industry standards.

Our Core Business

GAMA Valley specializes in procurement, supply, and technical support for a broad portfolio of mechanical, instrumentation, and electrical products — serving industrial plants, drilling operations, and process facilities throughout the Kingdom.

Mechanical Products

Valves, fittings, fasteners, and mechanical accessories engineered for high-pressure industrial environments.

Electrical Components

Industrial connectors, control components, and signal system accessories for plant automation.

Instrumentation

Pressure transmitters, flow devices, temperature sensors, and control system accessories.

Spare Parts & MRO

Comprehensive range of repair kits, sealing solutions, and maintenance hardware for operational continuity.

Valves – Core Product Line

Valves represent one of GAMA Valley's most critical product lines. We supply a comprehensive range of industrial valves engineered for the demanding environments of oil & gas, power plants, desalination facilities, and petrochemical plants.

Ball Valves

Floating & Trunnion Mounted

Gate Valves

Full bore isolation service

Globe Valves

Flow regulation applications

Check Valves

Non-return flow protection

Control Valves

Process control & modulation

Special Purpose

Application-specific designs

Ball Valves – Detailed Specifications

Key Design Features

- Full Bore and Reduced Bore designs
- Trunnion Mounted and Floating configurations
- API 6D / ASME compliant designs
- Carbon Steel, Stainless Steel, and Alloy materials
- Manual, Gear, Pneumatic, and Electric actuation

Typical Applications

Ball valves from GAMA Valley serve critical isolation and flow control functions across pipelines, process plants, desalination systems, and power generation facilities — available across a wide range of pressure classes and sizes.

- ❏ All ball valve designs are supplied in compliance with API 6D and ASME standards to meet project specification requirements.

Instrumentation & Electrical Components

GAMA Valley supplies a comprehensive range of instrumentation and electrical components supporting automation systems, monitoring equipment, and plant instrumentation infrastructure across the region.

→ **Pressure Transmitters**

High-accuracy sensing for process monitoring and safety systems.

→ **Temperature Sensors & Thermocouples**

Reliable thermal measurement for critical process environments.

→ **Flow Measurement Devices**

Precision flow metering for liquid, gas, and steam applications.

→ **Connectors & Control Components**

Industrial-grade electrical connectors, adapters, and signal accessories.

Industrial Accessories & Spare Parts

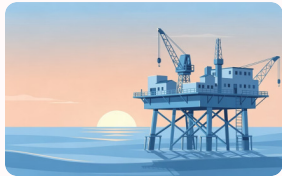

GAMA Valley provides a comprehensive range of industrial accessories and spare parts that ensure reliable operation and extended service life for critical plant equipment.

- **Valve Spare Parts & Repair Kits**
- **Instrument Fittings & Adapters**
- **Industrial Fasteners & Sealing Components**
- **Gaskets & Sealing Solutions**
- **Mechanical & Installation Hardware**

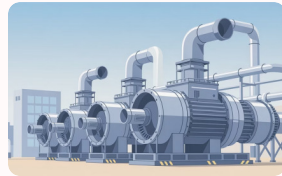

Industries We Serve

GAMA Valley supports some of the most demanding industrial sectors in the Kingdom of Saudi Arabia and the wider GCC region — providing reliable supply solutions where operational continuity is non-negotiable.

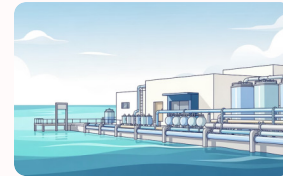

Oil & Gas

Upstream, midstream, and downstream operations.

Power Generation

Thermal, combined-cycle, and utility-scale facilities.

Water Desalination

SWRO and thermal desalination infrastructure.

Petrochemical

Processing plants, refineries, and chemical facilities.

Industrial Manufacturing

General industrial and fabrication facilities.

Energy Infrastructure

Pipelines, transmission networks, and utility assets.

Our Commitment to Clients

GAMA Valley is built on a commitment to quality, reliability, and responsiveness — ensuring that procurement engineers, plant managers, and technical buyers receive exactly what they need, when they need it.

Quality Assurance

Products sourced from trusted international manufacturers meeting applicable industry standards.

Reliable Supply

Competitive and dependable supply solutions tailored to project timelines and critical needs.

Technical Expertise

Product knowledge and technical support to help clients select the right solution for every application.

Fast Response

Agile response to customer inquiries, urgent requirements, and time-sensitive procurement needs.

Your Trusted Industrial Supply Partner

Built for Critical Operations

GAMA Valley Company exists to support the operational reliability and efficiency of industrial facilities across the Kingdom. From engineered valves to instrumentation and spare parts — we deliver the products your plant depends on, backed by technical expertise and a commitment to service excellence.

Contact GAMA Valley

Reach out to discuss your procurement requirements, technical specifications, or supply needs. Our team is ready to support your next project.

Serving the Kingdom

Based in Saudi Arabia and strategically positioned to serve oil & gas, power, desalination, and petrochemical clients across the GCC with speed and reliability.
