## Work Experience

Creative Industrial Designer  
at [Kriskadecor](#). Montblanc, Spain  
Jun 2020 – Present

- Conceptualize and execute exhibition booths and creative concepts for marketing and brand communication.
- Design and adapt client projects through 3D modeling, 2D translation and graphic execution, combining technical precision and creativity.
- Optimize internal processes and develop graphic methods and tools for curtain adaptation workflows.
- Create presentations and visual materials for large-scale projects, ensuring brand consistency.
- Lead color analysis and research initiatives, and facilitate creative meetings.
- Develop scale models, prototypes and technical drawings to support product development and installations.

Workshop Lecturer, Bachelor in Design  
at [Elisava](#). Barcelona, Spain  
Sep 2024 – Oct 2024

- Designed and led a one-week workshop for 2 groups of 20 students.
- Developed concept concepts exploring recycled aluminum chains as a design material.
- Guided students through ideation, prototyping, and hands-on experimentation.

Junior Product Designer  
at [Studio Antoni Arola](#). Barcelona, Spain  
Oct 2019 – Mar 2020

- Created scale models with realistic lighting simulations.
- Developed conceptual and technical drawings, modeling, and rendering for new and existing lamps and lighting products.
- Assisted the graphic and communication team with graphic design, illustration, 3D visualizations, copywriting, and video editing.
- Provided on-site installation support.

Junior Product Designer  
at [Domestic Data Streamers](#). Barcelona, Spain  
Ago 2018 – Jan 2019

- Worked in the Product Department, primarily managing 3D printers in the workshop and contributing to product development for ongoing installations.
- Developed new product concepts for specific exhibitions and provided on-site support during the installations.
- Created 3D models, printed prototypes, and generated detailed installation instruction drawings.

Science & Technology Laboratory Intern  
at [Elisava](#). Barcelona, Spain  
Sep 2015 – Feb 2017

- Organization and maintenance of the workshop space, support to the professors during classes, assist students, research&test.
