The rational application of organic flow lines, irregular curves, and biomimetic structural features is highly attractive and tense,
Unlike the rigidity of geometric shapes, organic design imitates the irregularity in nature, creating a harmonious sense of balance.

The appearance design of the circular ring, every detail is quite outstanding. And the "hidden" design, but also let the product advanced sense straight up. The embedded valve body into the wall breaks the limitation of space, reasonable planning according to the space structure, not restricted by the frame strip, so that the Bathtubroom has more plasticity.

圆环的外观设计，每个细节都相当出色。而“藏起来”的设计，更是让产品高级感直线上升。入墙式预埋阀体，打破了空间的局限，根据空间结构合理规划，不受框条限制，让浴室有更多可塑性。
